America's National Parks: A Pop-Up Book

Synopsis

America's National Parks: A Pop-Up Book is a coast to coast journey featuring 18 of our most visited national parks, with six as stunning, double-page pop-ups: Everglades, Great Smoky Mountains, Grand Canyon, Yellowstone, Glacier, and Yosemite national parks. See two bear cubs scrambling up a tree to safety, an alligator charging its prey, a dory boat crashing through the rapids of the Colorado River, a Red Jammer tour bus coming out of a mountain tunnel, Old Faithful Geyser erupting 13 inches above the page, and a mother Grizzly rising up to defend her cubs. Fascinating park action springs to life in cleverly designed mini-booklet pops. The beauty of our national parks comes to life in these pages. You and your family will be inspired to visit our national parks. Pop-up paper engineering is created by Bruce Foster, designer of 40 pop-up books including the amazing Harry Potter pop-up. The pop-up illustrations by Dave Ember are in the style of the WPA 1930s posters. Thirteen of these historic posters are faithfully reproduced in the book, courtesy of the Library of Congress. Gold Medal Winner: Children's Picture Book (All Ages) by the Independent Publisher Book Awards (2013).

Book Information

Hardcover: 22 pages

Publisher: Farcountry Press; 1st edition (April 8, 2013)

Customer Reviews

It was a true privilege to open my mail and discover an extraordinary review copy of America's National Parks: A Pop-Up Book. Before I get into the wonders of the book, I must mention that one of the book's main purposes is to raise money for our National Park system. For every copy of

the book sold, \$8 will be donated to the National Park Conservation Association (NPCA); the publisher's goal is to raise \$100,000 for this cause, but only 1,200 copies of the Deluxe Limited Edition will be produced. Each of these are numbered and autographed by the paper engineer, illustrator and author. If you wish to purchase a Limited Edition book, you can only do so on the publisher's website. America's National Parks features six National Parks: 1) Everglades; 2) Great Smoky Mountains; 3) Grand Canyon; 4) Yellowstone; 5) Glacier and 6) Yosemite. The book begins with a most informative introduction to our National Parks. Did you know there are 58 National Parks and close to 400 preserved places the National Park System is responsible for protecting? Next to the intro you will find a letter from the President of the National Park Conservation Association. But the real thrill begins when you open up the first two-page pop-up spread. Here you'll be greeted by Everglades National Park, ironically, the National Park closest to my home and my heart. The detail of the pop-up River of Grass is phenomenal, from the tree hammock to the canoe and die cut birds. There's even a small side card that, when opened, up pops a gator and what appears to me to be a Great Blue Heron. Along with each pop-up spread are fascinating facts about each park. The Great Smoky Mountains National Park spread features spring flower pop-ups and some cool information about the American Black Bear.
