Need a new baby (or 1st birthday) gift? Are you tired of buying blankets, booties, and bunny sleepers? Then here's a gift I love to give that is guaranteed to unwrap a smile!"Peekaboo! I see..." wee readers instantly drawn into this heartwarming story based on the popular children's game. It features an adorable African-American toddler sporting an inquisitive nature and naturally textured hair. I couldn't tell if the child is male or female, which makes it appealing to everyone."Peekaboo! I see..." eager little readers searching soft pastel drawings for clues. What DOES the child see? The tip of a tail. The top of a hat. Turn the page to discover a playful puppy or laughing grandma. Award-winner Rachel Isadora uses only 53 words, printed in large, easy-to-read type, to keep you guessing."Peekaboo! I see..." pleased young readers requesting this book again and again. The first evening my youngest daughter spent with a baby sitter, she cried when she realized Mama and

Daddy were gone. Thankfully a warm lap, soothing voice, and repeats of Peekaboo Morning comforted her until we returned. For another heartwarming book by Isadora featuring simple text with large, easy-to-read print, and captivating illustrations, read In the Beginning.

I ordered this book because my school recommended it as an appropriate and outstanding book for 2's. I received it, a little dissatisfied in the lack of story line; however, my little budding toddler absolutely loves it. She guesses the "I see" before I turn the pages. And I do have to admit that I love the illustrations and the sweetness of the book. I just wish I had bought this when she was an infant and I REALLY wish (listen editors) that it was on board book, because I would love to give it as gifts to expecting moms!

My 16 month son has been intrigued with this book since the first time he saw it. He brings it to us everyday for us to read. When we can't read it to him he then sits and flips thru the pages himself. Wonderful clear illustrations for small child. This is a must have!

"Peekaboo Morning" by Rachel Isadora was a wonderful addition to my collection of picture books! The story features a delightful black child, who is probably male -- but the gender is not specified & a female could easily identify with the child. The illustrations are colorful and well-designed. All the illustrations are enjoyable, but the child looking at his mirror image is unusual. Showing grandma under her hat, grandpa behind his newspaper, and bunny ears prior to showing the full grandma, grandpa, and bunny gives children practice interpreting pictures. The child is seen having loving interactions with his mommy, daddy, grandma, grandpa, and his white friend. The phrase "Peekaboo! I see..." is often repeated. I know one young child of limited vocabulary, who began to say, "I see you," after hearing the story a few times.

How awesome is this book? I really love it, and so does baby. At 23 months old, he was able to "read" the book within days of receiving it. It contains familiar persons/objects, with a repetitive catchphrase. "Peekaboo, I see my Mommy." "Peekaboo I see my puppy." etc. Pictures are also beautiful. It is baby's new favorite.

I initially thought this book was way too "simple" for my 20 month old daughter when I first read it. Turns out that she LOVES this book. I've read it 7 times in a row in one sitting. She can't get enough. Loves seeing a little kid that looks like her in the book - and references to Mommy, Daddy,

and grandparents make for a personal and identifiable touch. Very sweet and fun book.

My son is 14 months, he loves this book, he grabs for it every morning and we read it over and over. I watch him as he gazes on the pictures and giggle as we turn the page and say " peekaboo, I see...."

Beautiful sweet artwork in this delightful, simple book. My 18 month old daughter enjoys this book very much. It's so refreshing to have picture books with African faces in it! There's a sweet white child in one of the pages too, so it's a very culturally friendly book.
