Age Range: 6 - 7 years

Grade Level: 1 and up

Customer Reviews

This phonics workbook is perfect for any student reading on a mid-first grade level who is still struggling with sounds. You can pace the student according to the individual needs because it starts with basic initial and end consonants to blends, digraphs, etc along with context clues. All pages are in color. Will help establish a strong foundation for sound-letter relationships. Makes a great companion with other reading materials that have comprehension passages. Not babyish. Very colorful. Answers in back.

GREAT book! reinforces vowel sounds, digraphs and diphthongs in colorful worksheets that have

very little to no writing. my 4 year old is doing great with them! lots of variety in the book! well worth it to supplement a curriculum.

Bought this for summer review for 7 yer old grandson. Also bought grade 3 but have not completed grade 2. The activity directions are clear and easy to follow so not difficult to get grandson interested.

My wife is. a Special Needs Reading Teacher of many years experience. She always uses this book in aiding her teaching of Handicapped Adults.

Good phonics help. I think it's a little basic for the second grade level and we are actually using it earlier but still a good workbook.

Well organized, concise bunch of worksheets to review grade 1 and prep for grade 2 phonics.

This is a good book. My almost first grader flew through it. It wasn't as challenging as I had hoped but he is still learning over the summer which was my main goal.

Absolutely perfect for supplemental instruction at home. It's detailed enough for laymen and parents to use at home!
