## Customer Reviews

My daughter loves this book -- it contains pictures of all the Disney princesses (except Merida from Brave). We used the book on a recent trip to Disney World for princess signing, and it is a lovely memento of the trip (we had each princess sign on their picture). Edited to add: we purchased this book in 2012, so any princesses after 2012 would also not be in the book. My daughter often reads her signed book, and she loves seeing most of the princesses in one book. It's great to use as an autograph book for Disney trips. The text is pretty bland -- but we bought the book for the pictures, not for the plot.

I read this story to my 2.5 year old daughter who absolutely loves anything princess. It is the perfect length to keep her attention so we actually read it instead of me making up a shorter story so she

doesn't get bored like we do with some other books.

My daughter is approaching three-and-a-half years old and I love that she is starting to have the attention span to sit through longer stories. Like many girls her age, she also loves anything to do with princesses and I decided to purchase this book for her for our road trip a few months ago to help keep her occupied during the long hours in the car. I have always loved the Little Golden Books and we have purchased a number of them recently because it's fun for my kids to read longer stories plus they are the perfect length so we can read a couple before bedtime! *Am a Princess* is a very basic book which talks about what princesses love to do and it introduces some of the Disney princesses. The princesses featured in here are Cinderella, Ariel, Snow White, Tiana, Rapunzel, Aurora, Jasmine, and Belle. Each princess gets a couple pages saying what they love to do and many of those activities are seen in their respective movies, such as Belle reading books. There are only one or two sentences on each page so it's very short and there isn't a whole lot to this book but my daughter has now learned many of the princesses from the Disney classics by reading this book. This book has 24 pages and looks like other LGB with the hardcovers, paperback pages, and gold spine. It measures 6 1/2 inches by 8 inches so it fits in perfectly with the rest of the books from the series. My daughter likes this book but it's a very, very quick read since there isn't much to it. She likes that there are many princesses in it and she's learned who a number of them are because of this book. I still think it's a good book to introduce your child to the Disney princesses and I'm glad we added this to our library. I recommend purchasing it but just be aware that there isn't much of a story to the book other than introducing the princesses and saying what they love to do.

This is an adorable book that always puts a smile on my 3yo daughter's face. I love the directness of the dialogue. Each princess addresses the reader as if they are introducing themselves to you. It's a little short but very sweet and a great bedtime read, especially when your little one wants "one more" book!

This book introduces your little children to all the disney princesses. These are the princesses in the book Rapunzel, Tiana, Cinderella, Belle, Ariel, Aurora, Jasmine and Snow white and they share what it means to be a princess. My 3 year old daughter loves this book and know all the princesses by name. The stories are short and the pages are colorful which keeps her focus and loving the stories. I recommend it for all the kids that are disney princess fan or getting to know the princesses.

My daughter is almost three and she's just learning what a princess is and who the Disney princesses are. This book is so great for a really brief introduction and overview of the featured princesses. It holds my daughter's attention well and is cute.

My daughter LOVES Golden Books and Princesses, so this is a great match for her. It has bright pictures, the golden binding is bright and matches the older generations of Golden Book brand. The story is a good little story about what makes each of these ladies a princess (good heart, hard work, etc).

I think Golden books in general have become a bit strange. I still have Golden books from when I was a kid....30+ years ago, and the stories were so much more in depth and made sense. These newer Golden books seem to be very short and so cut up that it's not a real story, it's so fragmented and poorly written. Just not the same. :(
