Customer Reviews

Story line kept the interest of the reader. The story brought the reader into the story emotionally and the writer wrote for the reader. The author demonstrates her expertise without relying on explicit language as other authors do. Refreshing to have an author that writes with the recognition that proper language can carry a story. Highly recommend this book.

It was a moving story that could have had a better ending. I would have liked to had more information on the sons prognosis and the reaction of some of the town folks.

Interesting story of a historical event. Enjoyed the detail included in the story of the event.
