Customer Reviews

This has fun additional practice for reading and writing Hebrew as a supplement to the main book. It's geared towards young children (elementary age) but my middle schooler enjoys it as well. If you do not have experience with Hebrew, the teacher's edition is very helpful to bring both books in the series together and for pacing. I had to order it from a separate source as I couldn't find it on .

This workbook helps any learner at the beginning level. The exercises are different than those in the lesson books. I enjoy the challenging myself so the entire set of books is great.

This activity book helps me to use the words I have been learning from the "Time To Read Hebrew" books, volumes 1 and 2. I believe it has greatly increased my vocabulary rememberance. Also using the book and audio "Living Israeli Hebrew For The Beginner...The Very Beginner" which is extremely valuable for me to hear correct pronunciation plus the Flash Cards included in this book were instrumental in learning the Hebrew letters.

An excellent way to learn the Hebrew letters and their sounds -- in a classroom or on your own! Very simple and well-paced for the beginner, child or adult. Highly recommend this resource to serious learners of the Hebrew language!

very practical hebrew book for new learner, I practice about two or three pages a day, this activity book must study with volume one and two, and it's very helpful.

I started to teach myself Hebrew 2 months ago and apart from the books I use to learn from, I also decided to give these books a try. I bought all 3. Well, these books are fun. The contents are very simple. Maybe a little too simple for my liking. But overall, I like them for the sake of killing time.

I got this for my wife so she could learn Hebrew. She started on it right away and said that this great and it what she needed.

We are very happy with this order, it's just as described and even my teenagers like it. Definitely recommend it.
