## Customer Reviews

BIG DISCLAIMER:I am an Oracle employee (15y@SUN, 3y@Oracle, specializing in Solaris);I have contributed to the development of the Solaris 11 OCP exam,and am one of the coauthors of the other Oracle Press Solaris 11book: Oracle Solaris 11 System Administration: The Complete ReferenceOracle Solaris 11 System Administration The Complete ReferenceSo, keeping in mind my potential(!) bias and background, here aresome comments about Michael Ernests's OCA Oracle Solaris 11 SystemAdministration Exam Guide.The exam being referenced is the first in the Solaris certificationseries, and is fairly basic. The more rigorous test is the SolarisOCP, directed at more experienced Solaris admins. So, the focusof Ernest's book, as with the book I coauthored, is really thedeveloping system admin who is learning Solaris 11 perhaps for thefirst time. Some UNIX-related experience is assumed, which couldcome from working with Linux, AIX, or HP-UX.Both books were written by authors who used Solaris 11 for x86 formost of the examples; not much detail is given in either book aboutSolaris 11 on SPARC servers. This is generally not a problem forlearning about key Solaris technologies like SMF, ZFS, IPS, zones,DTrace, and UNIX basics, etc, since these are essential the sameacross both x86 and SPARC platforms. The reason for this is thatthe authors generally did not have direct access to Oracle's currentSPARC servers.
