This Minecraft comic's artwork really brought it to life. It was so enjoyable to read and I absolutely loved the artwork!! I really wonder what happens to Steve...?! I'm looking forward to the sequel!!

recommend getting this for your children, or anyone else in fact. The storyline is really good. My boys are 11 & 13 and they both really enjoyed it!

Steve's Quest to Defeat Herobrine possesses the necessary twist to keep those unfamiliar with the famed franchise interested, and those loyal lovers satisfied. For a graphic novel, the visual diversity within the scenes meets my expectations. And though it may be considered short, it develops the story enough, not leaving any terrible lingering questions. I look forward to the next volume. Finally, some more great Minecraft content. Highly recommended for both Minecraft and comic lovers. Keep up the great work and the superb comics.

I love it! I enjoyed the story and the plot was very interesting. The ending left me wanting to know what happens to Steve...?! I really recommend this comic book to no matter adults or kids. You will get a great time for reading this book!

Wow this was one of the best quality Minecraft comic out there. I really enjoyed the story line and there were a lot of interesting plot twists! The art work is AWESOME and it is very entertaining to read. 5 stars! Can't wait for the sequel!

Minecraft is so popular with kids that it is nice to have something that will interest them but also draw them away from the video game. I picked up this book for my son, who is a huge Minecraft fan and he loved it! He read it over and over until I had to make him go to sleep. I highly recommend this book for any Minecraft fan.

I've read so many Mindcraft books with my kids; and I have to say this is the one with the best visual quality I've ever read. My kids enjoyed reading it and we had a blast discussing the characters and story-line together. They even want me to read the same book to them during bed time and in the morning, too!

This is a really nicely drawn comic book that can entertain any child! The story is really fun and captivating, and was pretty interesting too! I would recommend this to anyone who likes comics, as the storyline is pretty interesting too. Won't add spoilers but there's a twist near the end. Greatly made! Would get the sequel!

For a comic book, the artwork was nicely done. It was easy to read and I appreciate the flow of the story. The Minecraft game is quite popular today and this can be a good diversion of focus from the video game to the written material. The young ones will enjoy the pictures and dialogue. The story gives anticipation for episode 2 as well.
