Customer Reviews

If you read The Copernicus Legacy: The Forbidden Stone, you'll want to follow up by reading Tony Abbott's latest entry, Wade and the Scorpion's Claw, the first in a companion series of novellas collectively called The Copernicus Archives. If you're a little leery of buying novellas due to the too-frequent trend of digital short-stories sold under the title "novella" in the YA

market, have no fear. Priced at \$2.99 in digital format and \$3.99 in print, I can assure you that youâ™ll get your moneyâ™s worth if you decide to purchase this book. In fact, at 129 pages on my Nook or 224 pages in print, Wade and the Scorpionâ™s Claw is a bargain. The action begins on the return plane ride from the groupâ™s last foray before spilling over into an airport, a hotel, and the City of San Francisco, including Chinatown. Abbott refreshes your memory by quickly recapping the key players and events from his series opener before thrusting you straight into the action in this tale. Though I havenâ™t yet read book two (which will release October 7th), this installment serves as a bridge between the books in the main storyline, filling in a gap in time and functioning as the perfect appetizer to make you hungry for the next full-length adventure. Everything that contributed to the success of The Forbidden Stone is present here: non-stop action and suspense, interesting puzzles and clues, a fittingly scary new villain (or maybe two?), and a likeable cast of young heroes. As in the first book, there is a thematic emphasis on family and the strength that one can gain as part of a loving unit. Wade narrates this entry, and while Abbott never strays long from the plot, as they tag along with the extended Kaplan crew readers will get to know them better and look forward to future relic hunts.
