The One True God - Biblical Study Of The Doctrine Of God

Synopsis

The One True God is a unique kind of workbook, intending not just to teach truth but to lead to an encounter with the living God. Beneath that goal the book aims to ground believers in orthodox Christian theology and the actual contents of the Bible. Students are encouraged to thoughtfully draw conclusions from the Scriptures rather than to merely absorb the principles, inferences, and illustrations set before them by the author. For this reason the book does not include such material and instead focuses on digesting the Scriptures directly. Through God's own words and under various systematic headings the book unfolds the nature of God. In this way the reader is set on a firm foundation and will readily perceive the centrality and high authority of biblical doctrine within the Christian life. It is the author's conviction that the study of doctrine is both an intellectual and devotional discipline. Therefore students are guided throughout the study to think through and apply the truths they learn, meditating on the demands of Scripture for their heart and mind. The book puts us squarely in the middle of the material, and demands we give searching thought to how we will live before such a God. This workbook is especially suited for the following contexts: (1) doctrinal training for new converts; (2) college or adult Bible studies; (3) private study; (4) Christian or home school curriculum; (5) Sunday school material; (6) an aid to parents in teaching the Word of God to their families.

Customer Reviews

It is a question I am asked a lot: what Bible study curriculum do you recommend? I rarely know what to say. There are so many of them available; time would fail me to collect, examine and review them all. I was interested, then, to see that Paul Washer is releasing a new edition of *The One True God*, a title first released several years ago. It is published by Granted Ministries Press. No less than Iain Murray declares that it is "the best introductory work known to me. ... Young Christians could scarcely spend their time better than working carefully through these pages." This is a 192 page hardcover book meant for serious study. "The great goal of this study is for the student to have an encounter with God through His Word. Founded upon the conviction that the Scriptures are the inspired and infallible Word of God, this study has been designed in such a way that it is literally impossible for the student to advance without an open Bible before him or her." And he is right. A person who seeks to skim through this study or who leaves it for the last minute will not only gain very little but will actually be unable to complete it. Washer begins his book with this necessary, valuable exhortation. "The study of doctrine is both an intellectual and devotional discipline. It is a passionate search for God that should always lead the student to greater personal transformation, obedience, and heartfelt worship. Therefore, the student should be on guard against the great error of seeking only impersonal knowledge, and not the person of God. Neither mindless devotion nor mere intellectual pursuits are profitable, for in either case, God is lost." The purpose of this study, then, is not merely to increase knowledge, but to increase devotion.
